

Technical Data	U.S. Units	Metric Units
Cavity	T-2A	
Body Features	P to T, port 3 external	
Body Type	Sandwich	
Interface	ISO 05 - X&Y	
Open Cavity Quantity	1	
Stack Height	2.49 in.	63 mm
Weight	2.254 lb.	1,023 kg.

Related Accessories	
Part Number	Description
990-120-009	ISO 05 X and Y US sandwich manifold retainer and buna-N seal kit
990-120-010	ISO 05 X and Y US sandwich manifold retainer and Viton seal kit
990-120-011	ISO 05 X and Y Europe sandwich manifold retainer and Viton seal kit
990-120-012	ISO 05 X and Y Europe sandwich manifold retainer and buna-N seal kit

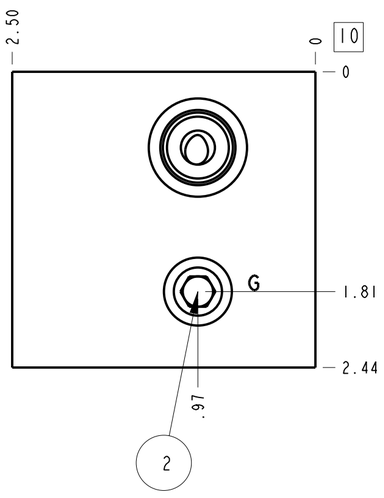

Notes

1. Stack height value in technical data table includes seal retainer plate.
2. This installation requires a retainer and seal kit which are purchased separately. See "Related Accessories" section.
3. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
4. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
