

Notes

1. Stack height value in technical data table includes seal retainer plate.
2. This installation requires a retainer and seal kit which are purchased separately. See "Related Accessories" section.
3. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
4. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.

Technical Data	U.S. Units	Metric Units
Cavity	T-10A	
Body Features	A to B and B to A	
Body Type	Sandwich	
Interface	ISO 05 - X&Y	
Open Cavity Quantity	2	
Stack Height	2.49 in.	63 mm
Weight	1.716 lb.	0,779 kg.
Seal Plate Included (see notes)	No
