

Port Headings		
Product	Port	Size
FEA	Ports 1 & 2	1/4" NPTF
FEA	Gage Ports	1/4" NPTF

Notes

1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.

Technical Data	U.S. Units	Metric Units
Cavity	T-10A	
Body Features	Through port with gauge port	
Body Type	Line mount	
Interface	None	
Open Cavity Quantity	1	
Weight	0.742 lb.	0,337 kg.
Mounting Hole Thread	.250-20 UNC - 2B in.	
Mounting Hole Depth	.50 in.	12,7 mm
MountingHole Quantity	2
