

Technical Data	U.S. Units	Metric Units
Cavity	T-10A	
Body Features	Through port with gauge port	
Body Type	Line mount	
Interface	None	
Open Cavity Quantity	1	
Weight	0.684 lb.	0,310 kg.
Mounting Hole Thread	.250-20 UNC - 2B in.	
Mounting Hole Depth	.50 in.	12,7 mm
Mounting Hole Quantity	2	

Notes

1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
