

Technical Data	U.S. Units	Metric Units
Cavity	T-17A	
Body Features	Dual bypass flow control	
Body Type	Line mount	
Interface	None	
Open Cavity Quantity	2	
Weight	8.381 lb.	3,802 kg.
Mounting Hole Diameter	.42 in.	10,7 mm
Mounting Hole Depth	Through	
Mounting Hole Quantity	2	

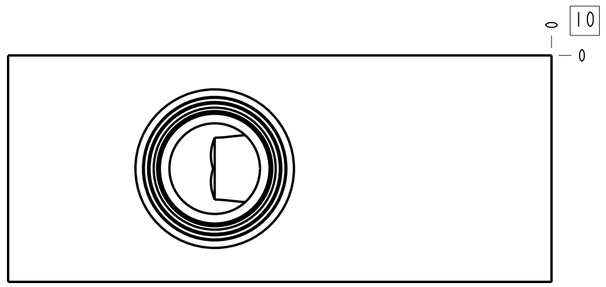

Notes

1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
