

Technical Data	U.S. Units	Metric Units
Cavity	T-2A	
Body Features	Nipple mount	
Body Type	Line mount	
Open Cavity Quantity	1	
Weight	1.352 lb.	0,613 kg.

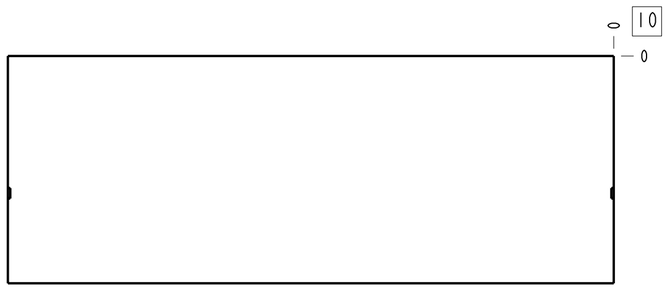

Notes

1. Important: Carefully consider the maximum system pressure. The pressure rating of the manifold is dependent on the manifold material, with the port type/size a secondary consideration. Manifolds constructed of aluminum are not rated for pressures higher than 3000 psi (210 bar), regardless of the port type/size specified.
2. This drawing is for reference only. It is generated by an automated process and does not fall under Sun's document control process.
